# READY . . . SET . . . COPY!

Wouldn't it be nice to have access to ready-to-use content that you can simply copy into your folder and teach? You can! Drive meaningful instruction inside and outside of the classroom with *Gale In Context: For Educators*. This one resource merges quality, curriculum-aligned content with related lesson plans, activities, project plans, and instructional resources—giving you more opportunities to support differentiated learning, participate in cross-curricular collaboration, and tend to those seemingly always-jammed paper trays. Take back your time to focus on what matters: keeping students engaged and motivated.

ACCESS RELIABLE, UP-TO-DATE CONTENT

Support literacy, science, social studies, English language arts, and more with digital content from thousands of high-quality sources, including academic journals, primary sources, magazines, newspapers, and books. Tools like language translation, ReadSpeaker, and the OpenDyslexic font make learning accessible for all students.
