SEARCHING CONTENT

Basic Search

Locate relevant entries based on your search term(s). Basic search is a good place to start your research.

Advanced Search

Customize your search with more limiting options to target relevant results. You can use advanced search to run complex searches for specific results, or to perform open searches for a broad view of available content.

- **Subject:** Choose this field to search document tags and find results fully focused on your topic. Try subject if your basic search produces too many results.
- **Entire Document:** Pick this option to search within the entire text of eBooks. This option performs a broad search for any mention of your terms, so you can find precise phrases within results, or locate articles that touch on specific concepts.
- **Image Caption:** Select this field to search captions from photographs, illustrations, charts, etc. Use this search to find chapters with relevant visuals.
- **Search Operators:** Use these drop-downs to connect your search terms. **AND** ensures your results mention both terms. **OR** broadens your search to results mentioning either term. **NOT** excludes a term.

Search Results

Access a list of relevant ebook chapters based on your search. If you have a large number of results, use options to sort and limit the list.

- **Sort By:** Use this drop-down to view documents with the highest relevance based on factors like the frequency and location of references to your search terms. Or, change the order of results based on publication details.
- **Filter Your Results:** Click to access and apply limits to documents with images, or based on **Subject**, **Document Type**, and more. Or, select **Search Within** and submit additional terms to refine your search. Use these options to save time finding the trustworthy information you need. *Videos are available in a few specific eBooks. If your library has not acquired these titles, limiting to documents with videos will return zero results. If this happens, click to remove the limit and return to previous results.*
- **Topic Finder:** Click this option to generate a visual representation of your search results by topic and subtopic. As you interact with Topic Finder, it provides an updated list of results. Simply click a document's title to view the result.

Click the document title to view a chapter. Use **Book View** and **Text View** to toggle the chapter display as desired.

The screenshot shows the Gale eBooks search interface. At the top, there's a search bar with 'mammal' entered. Below the search bar, a dropdown menu shows search suggestions: 'mammalian', 'mammal', 'mammalian cells', 'mammalia', 'mammal species', 'mammalian species', 'mammals including mammalian brain', 'mammals and birds', 'mammalian target of rapamycin mtor', and 'mammal research'. On the left, there's a 'BROWSE COLLECTION' sidebar with various categories and their counts, such as 'Arts (461)', 'Biography (876)', 'Education (3078)', etc. The main content area displays a grid of book covers, including 'The Art of Animation 2020', 'The Art of Anime and Manga 2020', 'The Art of Comics 2020', 'The Art of Graffiti 2020', 'Aaron Judge', 'Aaron Rodgers Super Bowl MVP', 'Abraham Lincoln and John Wilkes Booth', and 'Adolf Hitler'.

BROWSING TITLES

Scroll through all available eBooks on the homepage, or click a collection to view all its titles. Click a title's cover to access the eBook's Table of Contents.

Table of Contents

Use arrows in the outline to expand and contract available eBook sections. Click a chapter or section to view the text. Or, use the **View eBook** button to jump directly into the first page of the title.

You can find a drop-down Table of Contents at the top of each document. Use it to quickly navigate the eBook.

The screenshot shows the Gale eBooks interface. At the top, there's a navigation bar with 'My Library: Demonstration Account', 'Change Databases', 'English', and 'Signed In: Emily'. Below that is the 'GALE EBOOKS' header with a search bar and 'Advanced Search' options. The main content area is titled 'Table of Contents' and features a book cover for 'Grzimek's Animal Life Encyclopedia, Vol. 9: Birds II, 2nd Edition'. The description states it's a completely revised and updated version of the original work published in Germany in 1960, incorporating recent developments in the animal world. A 'View eBook' button is visible. Below the description, there are links for 'About This Publication', 'Table of Contents', 'Book Index', and 'List of Illustrations'. A 'Choose a volume:' dropdown menu is set to 'Lower Metazoans and Lesser Deuterostomes'. The 'TABLE OF CONTENTS' section lists: Cover, Half Title Page, Title Page, Copyright Page, Contents, Foreword, How to Use This Book, Advisory Boards, Contributing Writers, Contributing Illustrators, and Topic Overviews.

WORKING WITH DOCUMENTS

Manage your research with document tools and features. Most *Gale eBooks* are available in Book View and Text View.

Book View

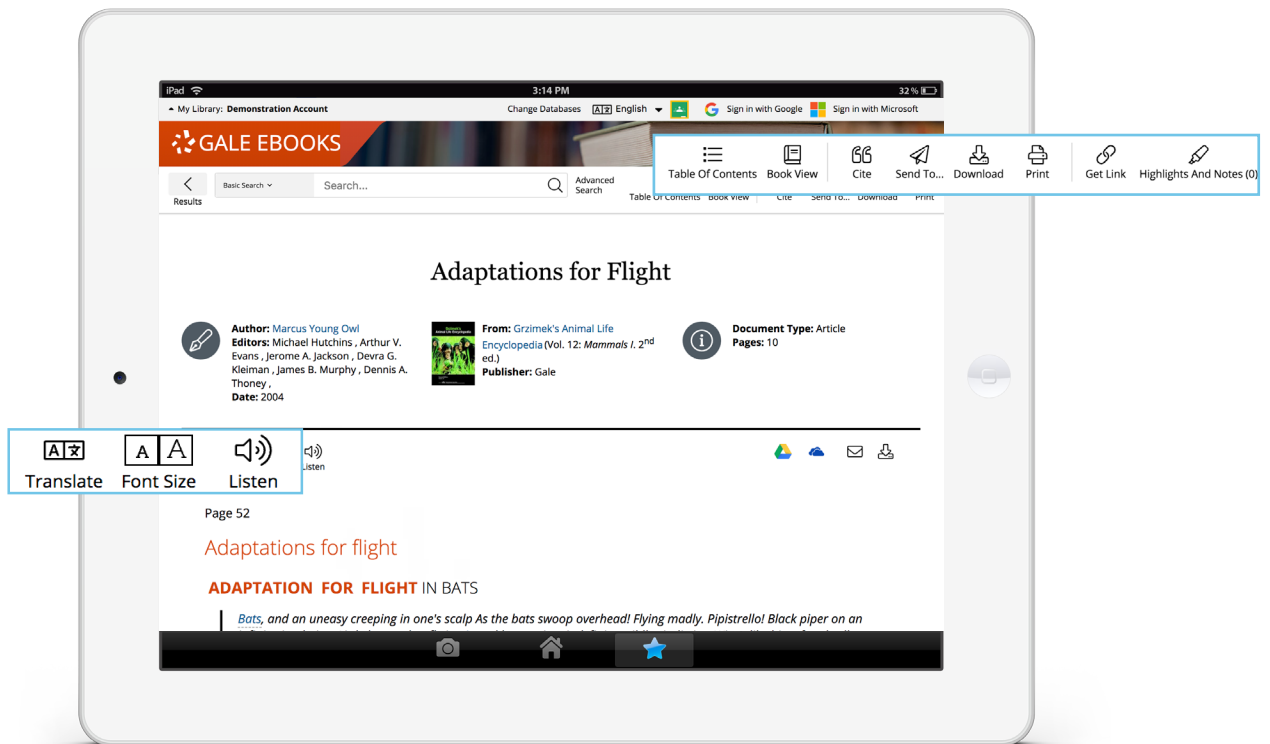

Mimics the print layout of the book, and includes options to flip pages, zoom, toggle between one and two page views, and expand or collapse full screen.

- Click **Cite** to generate a citation using MLA, APA or Chicago style.
- **Download** a PDF version of the document.
- **Print** the full document, or use the page range to select specific portions.
- Use **Get Link** to create a URL back to the entry or chapter. Copy and paste the link in emails, on websites, or anywhere else you'd normally place a URL. This tool provides an easy way for you to share.
- Use **Text View** to toggle your view of the document.

The screenshot shows the Gale eBooks interface on an iPad. The top bar includes 'iPod', signal strength, '3:14 PM', and '32%' battery. The 'GALE EBOOKS' header is visible. The search bar contains 'adaptations for flight'. Below the header, there's a 'Table of Contents' button and 'Text View' selected. The main content area displays the article 'Adaptations for Flight' from 'Grzimek's Animal Life Encyclopedia'. The article text is visible, discussing bat evolution and flight mechanics. Two images are shown: one of a bat in flight and another of a bat in a wind tunnel. The iPad's home indicator bar is at the bottom.

Text View

An easy-to-read option that includes all text and images from the eBook entry or chapter.

- Use **Cite** to generate a citation using MLA, APA, or Chicago style. Export the citation into a variety of tools, or simply copy and paste it into your bibliography.
- Click **Send to...** to email or export the result to your Google Drive™ or OneDrive™ account, allowing you to access it indefinitely. A *Gale eBooks* folder is automatically created to make it easy to find your exported documents.
- **Download** or **Print** the document to keep a copy of the result, including any highlights and notes you've added.
- Use **Get Link** to create a URL back to practically any page you choose. Copy and paste the link in documents, on websites, or anywhere else you'd normally place a URL. This tool provides an easy way for you to share individual results, searches, and more.
- Annotate important text with **Highlights and Notes**. Click and drag to select text within a result, choose a highlighter color, and add notes to the selection. Download, Print, or Send to... email, Google Drive™, or OneDrive™ to retain your highlights and notes with the result. You can also click the Highlights and Notes tool and then choose **View All Highlights and Notes** to access a summary of your annotations. *Once you leave the database, your work is erased to protect your privacy.*
- Select **Translate** to view a machine translation of the document in the language of your choice.
- Click **Listen** to have the article read aloud to you. After clicking play, you can download the audio .mp3.
- **Explore** similar results by selecting articles listed under **More Like This**. Or, click **Related Subjects** to find additional documents with similar subject terms. These options link you to further results to boost your understanding and enhance your research.
- Use **Book View** to toggle your view of the document.
