

GALE PRESENTS: MISS HUMBLEBEE'S ACADEMY

Support Kindergarten Readiness

Designed for children ages 3 to 6, Miss Humblebee's Academy is an easy-to-use, interactive online solution for kindergarten readiness. It offers hundreds of lessons spanning all major academic subjects, gives weekly progress reports, and is the only product that provides assessments to measure proficiency and learning

LEARNER-CENTERED ENVIRONMENT

Miss Humblebee's Academy creates a tranquil, supportive, and comprehensive learning environment where children can focus on the learning activity at hand without distraction.

MORE THAN A, B, C AND 1, 2, 3

Miss Humblebee's Academy provides an age-related developmental milestones guide and observations checklist to aid parents' understanding of readiness.

CROSS-CURRICULAR SUPPORT

Each lesson targets one or more specific learning objective and the program progresses in difficulty, so the child's foundation of knowledge grows as more lessons are completed.

MEASURE SUCCESS

Parents receive weekly email notifications to view progress and performance reports, which help pinpoint trouble spots, view improvement over time, and measure progress based on length of practice time.
